

Quality Policy

JSC Moldova Steel Works is a modern steel company, whose main activity is the production of continuous steel billets, reinforcing bars and wire rod.

The quality policy is a reflection of the Company's strategic direction and aimed at increasing the Company's profits as well as at the fulfilment of requirements and the maximum satisfaction of wishes and expectations of the users, customers, staff, shareholders and all interested parties.

Top management of JSC Moldova Steel Works has undertaken the following commitments:

- To focus the Company's activities on the full satisfaction of the customers' requirements by providing high-quality steel products in compliance with the requirements of applicable standards, specifications, and laws and regulations;
- To ensure financial stability of the Company by further developing the production processes, ensuring that the resources needed are available, implementing scientific research results and state-of-the-art technologies to manufacture steel products that are accessible to the customers and meet their requirements and demand;
- To ensure conditions for the continual improvement of the competence and awareness and for the training of the personnel; to provide support to the personnel in achieving the objectives established;
- To continually improve the efficiency and the effective operation of the quality management system through the continuous monitoring and system analysis in compliance with the requirements of ISO 9001:2015, by providing the conditions and resources needed.

Top management of the Company assumes responsibility for the implementation of the Quality Policy and calls upon all staff to take an active part in its implementation.

We must be the best in steel product markets!

General Director
JSC Moldova Steel Works

 S.V. Cornev
